

Leading Manufacturer and  
Exporter of High-Quality  
**Copper and Brass Components**

## About Us

Urban Airtac is a leading producer and exporter of high-quality copper and brass components for a range of industries worldwide. Our commitment to sustainability and durability ensures that premium spare components enhance the efficiency and functionality of several industrial applications.

Urban Airtac was founded with the goal of reducing the quality and price gap, and it has built a strong reputation for offering excellent goods along with outstanding customer service. The company specializes in producing copper tube fittings, brass connectors, and other replacement parts needed to meet global standards. Because we value innovation, ongoing development, and client satisfaction, we make sure that every product we offer to customers reflects the highest levels of craftsmanship.

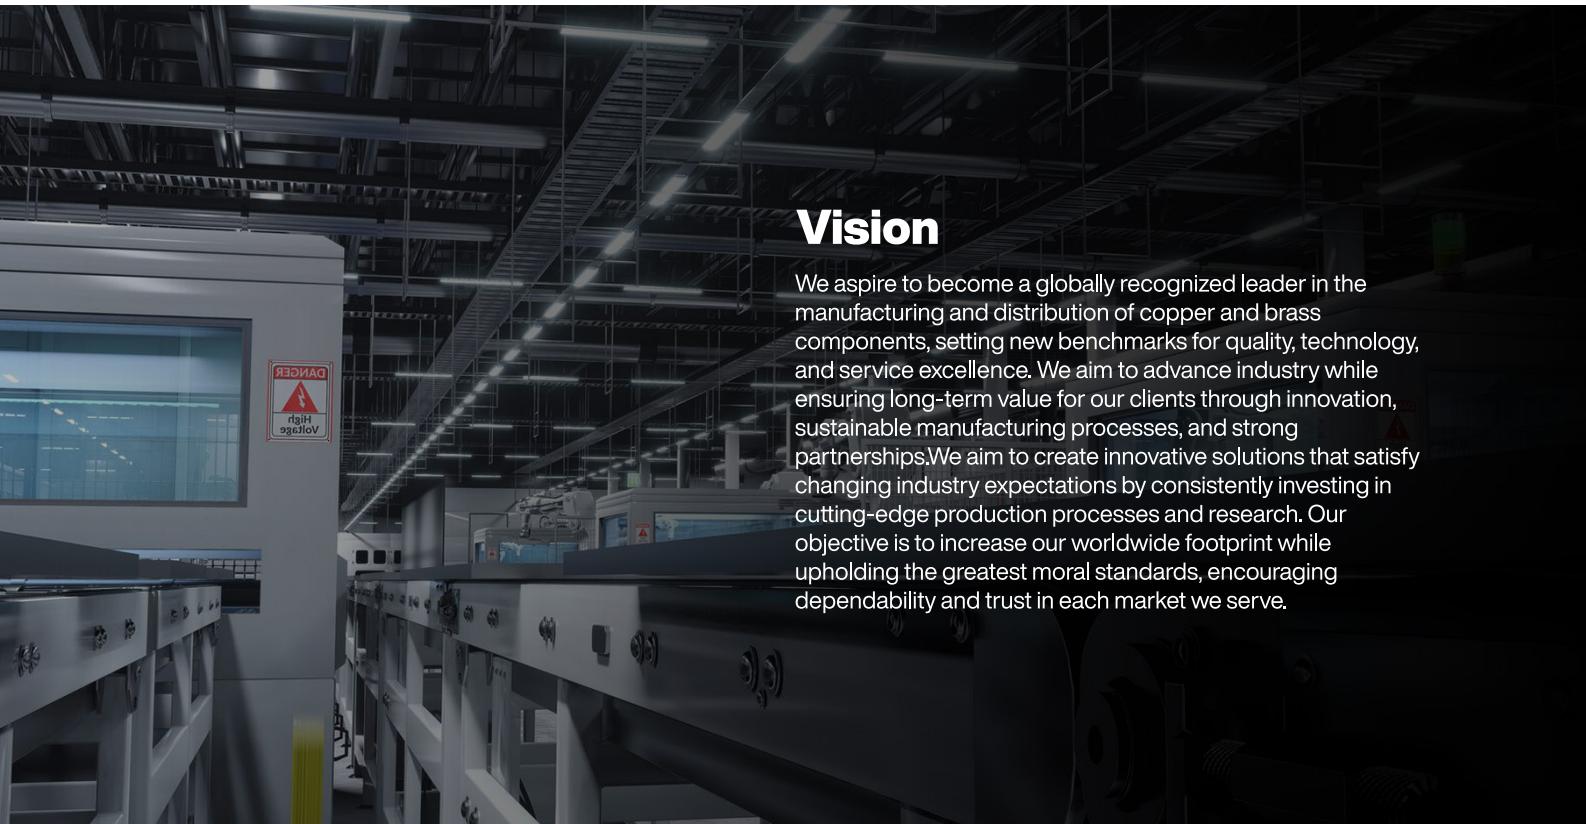

## Mission

Our goal at Urban Airtac is to produce and distribute premium copper and brass replacement parts that improve industrial efficiency, dependability, and performance. We work to provide long-lasting and reasonably priced solutions that satisfy international industry standards while guaranteeing sustainability and customer satisfaction via innovation, and strict quality control.

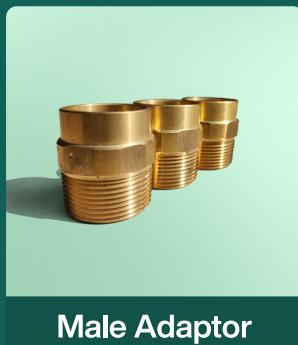

## Vision

We aspire to become a globally recognized leader in the manufacturing and distribution of copper and brass components, setting new benchmarks for quality, technology, and service excellence. We aim to advance industry while ensuring long-term value for our clients through innovation, sustainable manufacturing processes, and strong partnerships. We aim to create innovative solutions that satisfy changing industry expectations by consistently investing in cutting-edge production processes and research. Our objective is to increase our worldwide footprint while upholding the greatest moral standards, encouraging dependability and trust in each market we serve.
